RESTRICTION

Restriction to one of the following inventions is required under 35 U.S.C. § 121:

I. Claims 8-12, drawn to kits comprising oligonucleotides, classified in Class 536, subclass 24.31.

II. Claims 13-30, drawn to methods for diagnosing risk of colorectal cancer, classified in Class 435, subclass 6.

The inventions are distinct, each from the other because of the following reasons:

Inventions I and II are related as product and process of use. The inventions can be shown to be distinct if either or both of the following can be shown: (1) the process for using the product as claimed can be practiced with another materially different product or (2) the product as claimed can be used in a materially different process of using that product (MPEP § 806.05(h)). In the instant case, the kits comprising oligonucleotides of invention I can be used in a materially different process such as general methods of assaying for MnSOD variants or methods for diagnosing other cancers, such as breast cancer.

Because these inventions are distinct for the reasons given above and have acquired a different status in the art as demonstrated by their different classification and recognized divergent subject matter and because inventions I and II require different searches that are not co-extensive, examination of these distinct inventions would pose a serious burden on the examiner and therefore restriction for examination purposes as indicated is proper.

Art Unit: 1655

A telephone call was made to Rajiv Yadav on November 5, 2001 to request an oral election to the above restriction requirement, but did not result in an election being made because Applicants requested that the restriction be made in writing.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Carla Myers whose telephone number is (703) 308-2199. The examiner can normally be reached on Monday-Thursday from 6:30 AM-5:00 PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, W. Gary Jones, can be reached on (703)-308-1152. The fax number for the Technology Center is (703)-305-3014 or (703)-305-4242.

Any inquiry of a general nature or relating to the status of this application should be directed to the receptionist whose telephone number is (703) 308-0196.
